

LUKAS “MYNUS” KOVAC

BIO

I'm a graphic designer based in Slovakia. I've been into graphic design for couple of years now and it all started with me being bored during the university studies and few years later turned into real daily passion and joy. After all these years I can still say I do what I love and I love what I do.

WORK

My work represents the diversity of all kinds of goods meaning I can create icons, logos, illustrations, infographics, websites, UI, prints, apparel ...

I adapt and I can deliver proper & valuable solutions across all disciplines, proven and followed by the variety of references on my portfolios but of course there's more passion about some of them.

[mynus.sk](#) →

My personal portfolio, which includes a selection of my work.

[behance](#) →

Some more details on few works that might not be included on my regular portfolio.

[unpublished](#) →

A series of small sneak peek previews or recent works which haven't been put online yet.

EXPERIENCE

Freelancing all the time and working remotely for random clients & several companies.

EDUCATION

Graduated from the Technical University Kosice - Faculty of Mechanical Engineering. (Yep, has nothing to do with graphic design)

SKILLS

Tools: Illustrator, Sketch, Affinity Designer, Photoshop, InDesign, HTML & CSS basics

Lang.: English (fluent)
German (basics)

INTERESTS

Music, Movies, Concerts, Beer, Friends, Side projects, Minimalism and I can perform Beatbox a bit ;)
